

Herd Test Bucket Clear Colostrum

Features:

- Safely collect & store colostrum
- Avoid confusion in the dairy shed
- View milk colour and quality
- Easily cleaned

Product Information:

Make calf rearing easy with our new bright yellow Colostrum Collection bucket.

Providing quality colostrum early in life is the right thing to do for your newborn calves. Make calf rearing easy with our new bright yellow Colostrum Collection bucket. The clear polycarbonate bucket allows the user to view the colour and quantity of the milk and is clearly marked as 'Colostrum Only' with a wide bright yellow base to avoid any confusion in the dairy shed.

Brix test and milk directly into the 32L bucket to avoid bacteria contamination
