

# Excal Teat Grower

## Features:

- Firm rubber 'grower' teat for stronger lambs/kids
- Same 'Little Softy' design but withstands chewing
- Compatible with standard Calf feeders (22mm hole)
- Not recommended for new-born animals

## Product Information:

Our 'Grower' lamb/kid teat is designed to replace our Little Softy (white) lamb/kid 'starter' teat as the animals get stronger and start chewing the teats.

This black teat is made of stronger, harder rubber that is longer lasting than the Little Softy (white) teat. But the disadvantage is that this regular teat can be too firm for starting very young lambs and kids.
