

2024 Glove Range

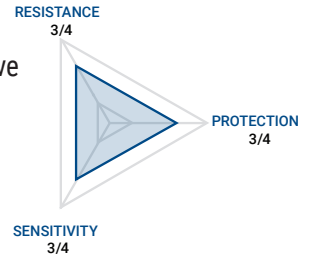

Obstetric Gloves

Genia Polygan

- Quality disposable shoulder length glove
- Highly tear-resistant with thin, strong seams
- Great feel/sensitivity
- Cost-effective
- Polyethelene

Code	Thickness	Size	Color	Pack Size
225467	24 micron	Small (87cm)	Orange	100
225468	24 micron	Medium (90cm)	Orange	100
225469	24 micron	Large (95cm)	Orange	100

Introducing Polygan Examination Gloves from Genia – designed to redefine both quality and affordability in examination gloves. Manufactured with attention to detail, these gloves boast unparalleled ‘feel’ sensitivity paired with exceptional puncture resistance, fortified seams, and heightened tear resistance.

Genia Ecogan

- Disposable shoulder length glove
- Medium protection & puncture resistance
- Economy offering for single-use applications
- Standard touch sensitivity

Code	Thickness	Length	Color	Pack Size
219511	1mil/25 micron	95cm	Green	100

Genia Progan

- Heavy-duty disposable shoulder length glove
- Highly tear-resistant with thin, strong seams
- Ideal for multiple examinations
- Good touch sensitivity

Code	Thickness	Length	Color	Pack Size
219510	1.2mil/30 micron	95cm	Yellow	100

Genia Sensigan

- Transparent disposable shoulder length glove
- Good protection & puncture resistance
- Neck strap prevents slipping
- Smooth surface for excellent touch sensitivity

Code	Thickness	Length	Color	Pack Size
208965	1.1mil/28 micron	95cm	Clear	100

Genia Maxogan

- High protection disposable shoulder length glove
- Full shoulder & armpit protection
- Ideal in wet & dirty conditions
- Standard touch sensitivity

Code	Thickness	Length	Color	Pack Size
219509	1mil/25 micron	120cm	Green	100

Milking Gloves

Standard Nitrile

- The original milking glove
- Nitrile conforms to hand shape for user comfort
- Ideal for those with latex allergies
- 240mm long and 4.5 mils thick (0.1mm)

Code	Brand	Rubber	Length	Colour	Thickness		Size	Unit
204633	Shoof	Nitrile	24cm	Blue	4.5 mil	114 micron	S	100Bx
204632	Shoof	Nitrile	24cm	Blue	4.5 mil	114 micron	M	100Bx
204631	Shoof	Nitrile	24cm	Blue	4.5 mil	114 micron	L	100Bx
204634	Shoof	Nitrile	24cm	Blue	4.5 mil	114 micron	XL	100Bx
204635	Shoof	Nitrile	24cm	Blue	4.5 mil	114 micron	XXL	100Bx

Long Nitrile

- Extra 50mm long cuff for extended protection
- Nitrile conforms to hand shape for user comfort
- Ideal for those with latex allergies
- 290mm long and 4.5 mils thick (0.1mm)

Code	Brand	Rubber	Length	Colour	Thickness		Size	Unit
204629	Shoof	Nitrile	29cm	Blue	4.5 mil	114 micron	S	100Bx
204628	Shoof	Nitrile	29cm	Blue	4.5 mil	114 micron	M	100Bx
204627	Shoof	Nitrile	29cm	Blue	4.5 mil	114 micron	L	100Bx
204630	Shoof	Nitrile	29cm	Blue	4.5 mil	114 micron	XL	100Bx
209218	Shoof	Nitrile	29cm	Blue	4.5 mil	114 micron	XXL	100Bx

Thick Nitrile

- Double thickness & extra 50mm long cuff
- Nitrile conforms to hand shape for user comfort
- Maximum protection
- 290mm long and 8.0 mils thick (0.2mm)

Code	Brand	Rubber	Length	Colour	Thickness		Size	Unit
209014	Shoof	Nitrile	29cm	Blue	8 mil	203 micron	S	100Bx
209013	Shoof	Nitrile	29cm	Blue	8 mil	203 micron	M	100Bx
209012	Shoof	Nitrile	29cm	Blue	8 mil	203 micron	L	100Bx
209080	Shoof	Nitrile	29cm	Blue	8 mil	203 micron	XL	100Bx

Latex

- Quality economy gloves
- Provide a good 'feel' for any job
- Made from natural latex rubber
- 240mm long and 4.0 mils thick (0.08mm)

Code	Brand	Rubber	Length	Colour	Thickness		Size	Unit
204625	Shoof	Latex	24cm	Blue	4 mil	101 micron	S	100Bx
204624	Shoof	Latex	24cm	Blue	4 mil	101 micron	M	100Bx
204623	Shoof	Latex	24cm	Blue	4 mil	101 micron	L	100Bx
204626	Shoof	Latex	24cm	Blue	4 mil	101 micron	XL	100Bx

Latex or Nitrile?

	Latex (natural rubber)	Nitrile (synthetic rubber)
Protection level	<p>Excellent The longstanding benchmark for barrier protection due to its strength and elasticity</p>	<p>Excellent Nitrile film is highly resistant to puncture and tears</p>
Allergen content	<p>Varies Latex contains protein and chemical allergens</p>	<p>Very Good Nitrile contains no latex proteins but contains some curing agents and other chemical ingredients</p>
Strength & durability	<p>Excellent Natural rubber latex is very strong and durable with a very good tensile strength</p>	<p>Excellent Nitrile film is extremely strong with puncture resistance superior to all glove films. With a very good tensile strength</p>
Elasticity	<p>Excellent Latex elasticity is superior to the other glove films. Memory is very high allowing the film to always return to its original shape.</p>	<p>Very Good Nitrile elasticity is very good with elongation limits typically 500% or better. Nitrile exhibits some memory, allowing the film to adapt to the wearer's hand</p>
Puncture resistance	<p>Very Good Latex is very resistant to punctures but can be pierced by very sharp objects</p>	<p>Excellent Puncture resistance is superior to all other glove films</p>
Fit & comfort	<p>Excellent Latex provides excellent comfort and fit due to its high elasticity and memory</p>	<p>Very Good Nitrile provides very good comfort and fit due to its high elasticity and memory. Due to a slightly tighter fit, users often choose a larger size</p>
Chemical resistance	<p>Good Provides good protection from most caustics and detergents</p>	<p>Excellent Nitrile exhibits excellent resistance to most chemicals especially harsh solvents</p>
Economy	<p>Very Good Latex provides very good economy for general use</p>	<p>Good Nitrile is more expensive than latex but can be justified against the cost of managing latex allergies</p>
Recommended use	<p>Recommended as a first choice for barrier protection except for users who are allergic to latex</p>	<p>Recommended as a preferred alternative to latex. Also recommended for conditions where high strength and/or chemical protection is required</p>
