

1. IDENTIFICATION OF SUBSTANCE & COMPANY

Product

Product Name:	Hoof-Fit Gel Intracare 330ml NZ SKU: 213782
Intended Use	Skin care of animals – For professional users only.

Supplier Details

Company	Shoof International Ltd	
Address	224 Laurent Road, Cambridge 3493 New Zealand	1 International Square Tullamarine, VIC 3043 Australia
Telephone	+64 7 827 3902 (NZ)	+61 3 9907 3000 (AU)
Website	www.shoof.co.nz	www.shoof.com.au
Emergency Contact (NZ)	0800 POISON (0800 764 766)	
Emergency Contact (AU)	13 11 26	

2. HAZARD IDENTIFICATION

Classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS).

GHS Classification

GHS07

Hazard Classes

Acute toxicology (Oral) Category 4
Skin corrosion/irritation Category 2

Hazard Statement

H302 Harmful if swallowed
H315 Causes skin irritation

Precautionary Statements

Signal word	WARNING	
Precautionary Statements	P264 P280 P301 + P312 + P330 P302+P352 P332+P313	Wash hands thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell. Rinse mouth IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention.
Storage	P362+P364 P403+P235	Take off contaminated clothing and wash before reuse. Store in a well-ventilated place. Keep cool

Other hazards:

Product does not meet PBT/vPvB criteria.

Endocrine-disrupting properties: The product does not meet the criteria.

3. COMPOSITION / INFORMATION ON INGREDIENTS

This product contains the following substances that present a hazard within the meaning of the relevant Hazardous Substances regulations.

Chemical Description: Mixture composed of additives and copper compounds

Components:

In accordance with Annex II of Regulation (EC) No 1907/2006 (point 3), the product contains:

Identification	Chemical Name/Classification	Concentration
CAS: 67989-88-2 EC: 268-018-3 Index: Not applicable REACH: 01-2119980793-23-XXXX	Diammonium [[N,N'-ethylenebis[N-(carboxymethyl)glycinato]](4-)-N,N',O,O',ON,ON']cuprate(2-)⁽¹⁾ Acute Toxicity (oral) 4: H302; Skin corrosion/irritation 2, H315	10 - <25%

4. FIRST AID

4.1 General Information

If medical advice is needed, have product container or label at hand. Call the National Poisons Centre or your doctor if you feel that you may have been harmed or irritated by the product.

Treat symptomatically.

4.2 Description of First Aid Measures

After Inhalation: Remove to fresh air. Seek medical attention if breathing problems develops.

After Skin Contact: Immediately remove contaminated clothing and wash affected areas with water and soap. Seek medical attention if symptoms persist.

After Eye Contact: Rinse eyes thoroughly with water for at least 15 minutes. If the injured person uses contact lenses, these should be removed unless they are stuck to the eyes, in which case removal could cause further damage. In all cases, after cleaning, a doctor should be consulted as quickly as possible with the SDS for the product.

By ingestion/
aspiration: Do not induce vomiting, but if it does happen, keep the head down to avoid aspiration. Keep the person affected at rest. Rinse out the mouth and throat, as they may have been affected during ingestion.

4.3 Important symptoms and effect – both acute and delayed

Acute and delayed effects are indicated in sections 2 and 11.

4.4 Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

5. FIREFIGHTING MEASURES

5.1 Extinguishing Media

Suitable extinguishing agents: Product is non-flammable under normal conditions of storage, handling and use. In the case of combustion as a result of improper handling, storage or use preferably use polyvalent powder extinguishers (ABC powder), in accordance with the Regulation on fire protection systems.

Unsuitable extinguishing agents: N/A

5.2 Special hazards arising from the substances or mixture

As a result of combustion or thermal decomposition reactive sub-products are created that can become highly toxic and, consequently, can present a serious health risk.

5.3 Advice for Firefighters

Depending on the magnitude of the fire it may be necessary to use full protective clothing and self-contained breathing apparatus (SCBA). Minimum emergency facilities and equipment should be available (fire blankets, portable first aid kit) in accordance with Directive 89/654/EC.

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel:

Isolate leaks provided that there is no additional risk for the people performing this task. Personal protection equipment must be used against potential contact with the spilt product (See section 8). Evacuate the area and keep out those who do not have protection.

For emergency responders:

Wear protective equipment. Keep unprotected persons away. See section 8.

6.2 Environmental precautions

Keep product away from drains, surface and ground water. Inform authorities in case of leakage (if applicable).

6.3 Methods and material for contamination and cleaning up

It is recommended:

Absorb the spillage using sand or inert absorbent and move it to a safe place. Do not absorb in sawdust or other combustible absorbents. For any concern related to disposal consult section 13.

6.4 Reference to other sections

See sections 8 and 13.

7. STORAGE HANDLING

Precaution for safe handling

General

Comply with the current legislation concerning the prevention of industrial risks with regards manually handling weights. Maintain order, cleanliness and dispose of using safe methods (section 6).

Technical recommendations for the prevention of fires and explosions

Product is non-flammable under normal conditions of storage, handling and use. It is recommended to transfer at slow speeds to avoid the generation of electrostatic charges that can affect flammable products. Consult section 10 for information on conditions and materials that should be avoided.

Technical recommendations on general occupational hygiene

Do not eat or drink during the process, washing hands afterwards with suitable cleaning products.

Technical recommendations to prevent environmental risks

It is recommended to have absorbent material available at close proximity to the product (See subsection **6.3**)

**Conditions for safe storage
including incompatibilities**

Store in a cool, dry, well-ventilated location
Avoid sources of heat, radiation, static electricity and contact with food.

Store out of reach of children.

For additional information see subsection 10.5

Specific end-use(s)

N/A

8. EXPOSURE CONTROLS / PERSONAL PROTECTIVE EQUIPMENT

8.1 Control Parameters

Substances whose occupational exposure limits have to be monitored in the workplace (European OEL, not country-specific legislation):

There is no applicable occupational exposure limits for the substances contained in the product.

DNEL Workers

Identification		Short Exposure		Long Exposure	
		Systematic	Local	Systematic	Local
Diammonium [[N,N'-ethylenebis[N-(carboxymethyl)glycinato]](4-)-N,N',O,O',ON,ON'] cuprate(2-)]	Oral	N/A	N/A	N/A	N/A
	Dermal	N/A	N/A	N/A	N/A
	Inhalation	N/A	N/A	1.8mg/m ³	N/A

DNEL (General Population)

Identification		Short Exposure		Long Exposure	
		Systematic	Local	Systematic	Local
Diammonium [[N,N'-ethylenebis[N-(carboxymethyl)glycinato]](4-)-N,N',O,O',ON,ON'] cuprate(2-)]	Oral	N/A	N/A	0.375mg/kg	N/A
	Dermal	N/A	N/A	N/A	N/A
	Inhalation	N/A	N/A	0,45mg/m ³	N/A

PNEC

Identification				
Diammonium [[N,N'-ethylenebis[N-(carboxymethyl)glycinato]](4-)-N,N',O,O',ON,ON'] cuprate(2-)]	STP	63.8mg/L	Fresh Water	2.88mg/L
	Soil	0.2mg/kg	Marine Water	0.29mg/L
	Intermittent	1.07mg/L	Sediment (Fresh Water)	N/A
	Oral	N/A	Sediment (Marine Water)	N/A

8.2 Exposure Controls

Individual protection measures, such as personal protective equipment:

General protective and hygienic measures:

- The usual precautionary measures are to be adhered to when handling chemicals.
- Keep away from foodstuffs, beverages, and feed.
- Immediately remove all soiled and contaminated clothing.
- Wash hands before breaks and at the end of work.
- Avoid contact with the eyes and skin.

Hand protection:

- Use nitrile protective gloves. See Australian/New Zealand Standard AS/NZS 2161 for more information. When selecting gloves for use against certain chemicals, the degradation resistance, permeation rate and permeation breakthrough time should be considered.

Eye and Face protections:

- Safety goggles for protection against dust. See Australian/New Zealand Standard AS/NZS 1337 for more information.

Body Protection:

- Antistatic and fireproof protective clothing.
- Safety footwear with antistatic and heat-resistant properties.

9. PHYSICAL & CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

GENERAL INFORMATION	
Physical state at 20 °C	Liquid
Appearance	Not available
Colour	Green
Odour	Characteristic
Odour threshold	Not relevant
Volatility	
Boiling point at atmospheric pressure:	100 °C
Vapour pressure at 20 °C	2350 Pa
Vapour pressure at 50 °C	12381.01 Pa
Evaporation rate at 20 °C	Not relevant
Product description	
Density at 20°C	1300 kg.m ³
Relative density at 20°C	1.3
Dynamic viscosity at 20°C	2.29 cP
Kinematic viscosity at 20°C	1.79 mm ² /s
Kinematic viscosity at 40°C	Not relevant
Concentration	Not relevant
pH	Ca.6.5 (at 100%)
Flammability	
Flash point	Non Flammable (>60°C)
Flammability (solid, gas)	Not relevant
Autoignition temperature	Not relevant
Lower Flammability limit	Not relevant
Upper Flammability limit	Not relevant

*Not relevant due to the nature of the product, not providing information property of its hazards.

10. STABILITY & REACTIVITY

10.1 Reactivity

No known hazardous reactions. See section 7 from Safety Data Sheet.

10.2 Chemical Stability

Chemically stable under the indicated conditions of storage, handling and use.

10.3 Possibility of hazardous reactions

Under the specified conditions, hazardous reactions that lead to excessive temperatures or pressure are not expected.

10.4 Conditions to avoid

Keep away from children.

10.5 Incompatible materials

- Acids – avoid strong acid and bases.
- Alkalis – avoid strong bases.

10.6 Hazardous decomposition products

Unknown

11 TOXICOLOGICAL INFORMATION

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Note: The experimental information related to the toxicological properties of the product itself is not available.

In case of exposure that is repetitive, prolonged or at concentrations higher than the recommended occupational exposure limits, adverse effects on health may result, depending on the means of exposure:

Ingestion (acute effect)

- **Acute toxicity:** Based on available data, the classification criteria are not met, however, it contains substances classified as dangerous for consumption. For more information see section 3.
- **Corrosivity/Irritability:** Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

Inhalation (acute effect)

- **Acute toxicity:** Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for inhalation. For more information see section 3.
- **Corrosivity/Irritability:** Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

Contact with the skin and the eyes (acute effect)

- **Contact with the skin:** Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for skin contact. For more information see section 3.
- **Contact with the eyes:** Produces eye damage after contact.

CMR effects (carcinogenicity, mutagenicity and toxicity to reproduction)

- **Carcinogenicity:** Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for the effects mentioned. For more information see section 3.
IARC: Not relevant:
- **Mutagenicity:** Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.
- **Reproductive toxicity:** Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

Sensitizing effects

- **Respiratory:** Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous with sensitising effects. For more information see section 3.
- **Skin:** Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

Specific target organ toxicity (STOT) - single exposure

- Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

Specific target organ toxicity (STOT)-repeated exposure

- **Specific target organ toxicity (STOT)-repeated exposure:** Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.
- **Skin:** Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

Aspiration hazard

- Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

11.2 Specific toxicology information on the substance

Identification	Acute toxicity		Genus
Diammonium [[N,N'-ethylenebis[N-(carboxymethyl)glycinato]](4-)-N,N',O,O',ON,ON'] cuprate(2-)]	LD50 oral	500 mg/kg (ATEi)	
	LD50 dermal	N/A	
	LC50 inhalation	N/A	

11.3 Information on other hazards

Endocrine disrupting properties: The product does not meet the criteria

12 ECOLOGICAL DATA

The experimental information related to the eco-toxicological properties of the product itself is not available. Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

12.1 Toxicity

Not available.

12.2 Persistence and degradability: Substance specific information

Not available

12.3 Bioaccumulate potential: Substance specific information

Not available

12.4 Mobility in soil

Mobile when released in soil

12.5 Results of PBT and vPvB assessment

The substance does not meet the PBT/vPvB criteria.

12.6 Endocrine disrupting properties

The product does not meet the criteria.

12.7 Other adverse effects

Not described.

13 DISPOSAL CONSIDERATIONS

There are no product-specific restrictions, however, local council and resource consent conditions may apply, including requirements of trade waste consents.

Disposal Methods and Containers:

Dispose according to applicable local and state government regulations.

Special Precautions for Landfill or Incineration:

Please consult your state Land Waste Management Authority for more information.

14 TRANSPORT INFORMATION

This product is not regulated for transport (ADR/RID, IMDG, IATA)

15 REGULATORY INFORMATION

Australia

Australian Inventory of Industrial Chemicals (AIIC): This substance is not listed on the AIIC.

Hazard Classification: Classified as hazardous according to the Globally Harmonized System of Classification and Labelling of Chemicals (GHS) as implemented in Australia.

Poisons Standard (SUSMP): Not specifically listed.

Dangerous Goods Classification: Not classified as Dangerous Goods under the Australian Code for the Transport of Dangerous Goods by Road & Rail (ADG Code).

New Zealand

New Zealand Inventory of Chemicals (NZIoC): This substance is not listed on the NZIoC.

Hazardous Substances and New Organisms (HSNO) Act: Not specifically listed; however, it may still be subject to HSNO regulations depending on its use and quantity.

Dangerous Goods Classification: Not classified as Dangerous Goods under New Zealand's Land Transport Rule: Dangerous Goods 2005.

Regulatory information is subject to change and may vary based on specific uses, quantities, and formulations. Users are advised to consult the latest regulations and seek guidance from local regulatory authorities to ensure compliance.

16 OTHER INFORMATION

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Exposure scenarios:

This SDS has one annex which includes the Exposure Scenarios developed in the Chemical Safety Assessment.

Abbreviations and acronyms:

ADR: European agreement concerning the international carriage of dangerous goods by road

IMDG: International maritime dangerous goods code

IATA: International Air Transport Association

ICAO: International Civil Aviation Organisation

COD: Chemical Oxygen Demand

LC50: Lethal Concentration 50

EC50: Effective concentration 50

Review

Date Issue: March 2025

Version Number: 2.0

Next Review Date: March 2030

Disclaimer

This SDS is prepared by Shoof International and is based on our current state of knowledge, including information obtained from the supplier. The SDS is given in good faith and constitutes a guideline (not guarantee of Safety). The level of risk each substance poses is relevant to its properties (as summarised in the SDS) **AND HOW THE SUBSTANCE IS USED**. While guidelines are given for personal protective equipment, such precautions must be relevant to the use. The likely HSNO and GHS classification for this SDS has been estimated based on general information from the supplier (such as hazard, toxicological).
